

Coach Profile

My experience and clients

In 2007 I passed ACTP Coaching Training program provided by Coaches Training Institute. I got my certification in September 2007. From that time I am active in coaching profession. I coach mainly individuals - from low positions up to managerial positions (Account managers, Key Account managers). I do also team coaching with my coaching partner. We provide team coaching workshop called Team in the Mirror.

Up to date I had 19 clients. Now I am starting coaching with 4 new coachees. I have 78 coaching hours with my clients. I am preparing myself for ACC certification. As a team coach I worked with 5 companies. There were a huge satisfaction with my services in both - individuals and teams.

My approach

is Co-Activity. I believe in co-active relationships, partnerships, and community, knowing that my impact will be much greater than if I acted alone. I trust that each individual has inherent value to add, so I listen with deep curiosity and intent to discover and build on each other's ideas and intentions. I create designed alliances with explicit shared expectations of roles and outcome so I can both support and challenge each other in action. I work with client on basis of mirroring, questioning, active moving, making exercises and putting in action.

At the beginning of 2009 I launched my personal website www.whyaskwhy.eu. It is presentation of my person and my work. Unfortunately it is only in Slovak language. Soon it will be available in English.

I co-found another web project - education server for coaches in Czech and Slovak Republic - InsideOut - www.insideoutforum.eu.

My commitment

to coaching profession is huge. I see the positive impact of coaching on myself I want to pay it forward to my clients. There is a huge space for everyone to improve and develop for benefit of himself and people around. I want to be usefull for my clients in any time with any challenge they might have.
